

OPERA SINGER PLEASED WITH WORK OF CAST

Sang With Caruso in
Faust and Other
Operas

CAST REHEARSES

At Her Studio With
Seymour and
Blasingame

Leads in the cast of "Patience" had the pleasure of having their rehearsal Saturday afternoon at the studio of the famous Metropolitan Opera star, Madame Geovelli.

During the intermissions, Madame Geovelli told them several interesting episodes during her operatic career. She has sung with Caruso and Antonio Scotti many times in grand opera and one of the most interesting stories was when she played "Marguerite" in Faust. Scotti was Valentine, Marguerite's brother, and Caruso was Faust.

Madame Geovelli says she was quite corpulent at the time and Valentine lying flat on his back on the stage, supposedly dying, kept talking to her in Italian "don't fall too hard don't fall on my stomach." She in the meantime was singing very tragically in French, working up to a climax when she should faint and presto! she fell flat on the forbidden spot, whereupon the said Valentine groaned loudly, though supposedly dead.

Madame Geovelli was delighted with the work the cast has accomplished and she said there were potential operatic stars in their number.

Besides the members of the cast, the musical director, Milton Seymour, and the dramatic director, Frank M. Blasingame, were also present.

"Patience" promises to be a tremendous hit and all who wish to see this delightful comic opera should save Friday and Saturday evenings, March 30 and 31.

Miss Cadwell's Play Selected; To Be Produced 4 Prizes to be Given to Winners of Contest

Miss Floralyn Cadwell, instructor of English and formerly head of the English department at McKinley High School, has had the honor of having her play "The Wicked Wang Pah Meets A Dragon" listed in the Woman's Home Companion's prize contest for production in high schools and preparatory schools in the United States.

Four prizes, \$500, \$250, \$120, and \$100, have been offered in the interest of artistic and workmanlike production of good plays in the secondary schools. The award will be given with the earnest request that it be devoted to permanent dramatic equipment.

"Floralyn Cadwell's play is commended among a number as being peculiarly appropriate for such a test. "Full of Chinese atmosphere and poetry lending itself to orange and vermilion and vivid blue costumes; a Chinese romance in three acts."

"Here is an opportunity for one or more schools in Hawaii to win a prize with a play by a resident author. Any school may enter the contest."

Pecker Will Visit Europe Next Year

Irving C. Pecker, professor of romance languages, plans to be gone on special leave of absence during the first semester of next year. He will spend some time in Europe.

During Prof. Pecker's absence, Dr. C. E. Parmenter, from the University of Chicago, will take his place. Dr. Parmenter is a faculty member in the department of romance languages at the University of Chicago. He has perfected a mechanism which he uses in teaching French and Spanish.

Library Wants Your Suggestion

The Senior Class of 1927 has left a gift of \$126.38 to the University Library. The library would like suggestions to come from the students as to how the money should be invested. Suggestions may be dropped in the library box in the book store, or left at the desk in the library. The following are a few which have been made:

Awnings to go on the lanai windows.

Two Earl Schenk silhouette panels to hang in the library. The dictionary of National Biography.

Chronicles of Canada history series.

New books on the drama, and one-act plays.

A Hitchcock painting.

Dinner Given in Honor of Shunzo, George Sakamaki

Pres. Crawford Speaks
About Contact and
Understanding

In honor of Shunzo and George Sakamaki who are leaving on March 6 as student professors for the Doshisha University in Kyoto, Japan, Mr. Theodore Richards gave a dinner at the Y. W. C. A. on March 2. Those present were President D. L. Crawford, Dr. Scudder, Dr. T. Harada, Mr. C. N. Kurokawa, Mr. T. Richards, George Sakamaki, Shunzo Sakamaki, Misayo Ishizaki, Makoto Nukaga, Yoichi Hanaoka, Samuel Kawahara, Wilfred Minatoya, Paul Osumi and Richard Kaneko.

PRES. CRAWFORD SPEAKS
After the dinner President Crawford gave a word of aloha to the departing people. He stressed the fact that these two men will be a great factor in bringing about a closer relationship between the University of Hawaii and the Doshisha University. He expressed the hope that this work will be kept up so that similar relations be established with the other Universities of Japan. He said that with the Hawaiian atmosphere and American ideas, they will be instrumental in bringing about closer contact and friendship between Japan and America. He also stated that

Art Head Holds Fashion Show at Mrs. Frear's Home

Mrs. Louise Pinkney Sooy, new head of the Art Department of the University, conducted a fashion show at the home of Mrs. Walter Frear, on Tuesday night. For models she picked five attractive girls from the University to represent different types. They were Miss Imogene Benton, the tomboy type in a sport outfit, the tomboy suit; Miss Flora Woodhull, the demure blonde type, in a full, green organdie, with high decorated pockets, and an enormous leghorn hat; Miss Anne Moore, the tall type, in a very new and smart street ensemble; Miss Betty Steere, the charming debutante in a lovely, sheer, georgette evening gown; and Miss Marguerite Louis, the extreme type, in black velvet trimmed with rhinestones, low-cut, and with long, flowing lines.

May 4 is Picked For Big Hui Dance

Friday evening, May 4, has been chosen by Hui Lokahi as the date for its big annual dance, it was recently announced by Jack Myatt, president of the club. The place where the dance is to be given has not been decided upon yet, but both the Country Club and the Waialae Golf Club are being considered by Hui members.

Hui dances are always looked forward to eagerly by the fortunate who receive invitations and this year's affair is no exception. There will be a full moon on the evening of May 4, hence that date is a particularly desirable one on which to give a dance.

The choice of the place where the dance is to be given will be made public by Hui Lokahi as soon as the members have voted upon the question and made other necessary arrangements.

U. H. DEBATE TRIO LEAVES ON MAY 15

Goodwill Speakers to
Tour Japan, P. I.
and China

INTEREST IS KEEN Team Will Appear in Many Large Audiences

May 15 has been definitely decided upon as the date of departure of the University of Hawaii's "good will" debating trio which will make a tour of Japan, the principal cities of China, and Manila, during the coming summer. This decision was reached at a dinner given by Alexander Hume Ford at the Pan-Pacific Institute headquarters last Wednesday when Mr. Ford, Dean A. L. Andrews, Prof. J. M. Baker, the three members of the debating team, and the directors of the Cosmopolitan club met to talk over plans for the coming trip.

Reports from Japan indicate that the team will be eagerly awaited there. A letter from the all-Tokyo university committee to Walter Miha, corresponding secretary of the Cosmopolitan club and one of the three who will make the trip, indicate that considerable interest is being shown in Japan over the visit of the team from Hawaii. Plans for the entertaining of the three University of Hawaii speakers are already under way. At a meeting of representatives of 17 universities of Tokyo and the near vicinity it was decided to have the competition with the visiting team in the nature of an oratorical contest rather than a regular debate. Eliminations will be held between the 17 universities and a team of three

(Continued on Page 2.)

Berndt Contest Rules Announced

The prize of \$100 given annually by Mr. Emil A. Berndt, of Honolulu, will be awarded this year to the winner of a contest in extemporaneous speaking on the question of the relations between the United States and Nicaragua.

The final contest will be held on Friday, May 4th at the Mission Memorial Hall. There will be a preliminary contest on Friday, April 6 to select not more than eight persons to appear in the final contest.

On the day before the contests, both preliminary and final, each contestant will be given some particular phase of the general topic. The contestants will then prepare an outline on this particular subject so as to present their ideas in the most effective manner possible.

The speeches are not to be written out and memorized. Rather, the contest is to test the speakers' ability to speak extemporaneously on some subject on which they are supposed to be fully informed.

The fullest possible preparation should be made in obtaining and arranging the material to be presented. The phrasing of this material, as in a debate, is to be extemporaneous.

This contest is not, however, to be a debate, but rather a series of discussions, in that no two persons will speak on the same topic.

The trials to select the contestants will be held in Hawaii Hall, Room 104.

Speeches will be judged on the basis of adequacy of treatment, logical arrangement and coherence, variety, force, and, in general, power to convince or persuade.

Speakers may use notes in speaking but may not take upon the stage written or printed matter exceeding 100 words in all. Quotations may be either memorized or read.

The contest is open to all students in the University and in certain cases to special students who are registered for twelve or more semester hours.

Students wishing to compete are requested to inform J. M. Baker before April 1.

Military Ball Tomorrow Nite At Eight o'Clock

First of Its Kind This
Year; Sponsors to
be Hostesses

Tomorrow night will be the big night of the year for the cadets of the University R. O. T. C. when the military ball staged under the auspices of the Officers' Club, whose membership includes all commissioned cadet officers of the regiment, will be held at the Army Service Club on Hotel St. Dancing is to begin at 8 o'clock sharp and will probably continue till midnight.

THE PURPOSE
The affair is the first of its kind to be sponsored this year by the cadet corps and promises to be one of the big social events of the student program for the semester. The proceeds realized from the dance will be utilized in defraying expenses incurred in the construction of the firing point at the University rifle range, which sum amounts to approximately 250 dollars. However, it has been rumored that the main purpose underlying the occasion is to enable the members of the corps to get acquainted.

MAY GO IN "CIVIES"
There seems to be some sort of misunderstanding on the part of many students that the dance tomorrow night must be attended in uniform. Only commissioned officers of the regiment need wear the regulation dress while others may go in "civies."

Thus far it has not been able for those in charge of the dance to announce the total number of tickets sold, as a large portion of the cadet corps have not turned in reports. It was originally planned to hold an inter-company competition to ascertain as to which company has shown the most "initiative and aptitude" in the sale of tickets. Each cadet had been assigned two tickets by the company commanders sometime last week. It has been necessary to dispense with this part of the plan because it will be too late to make an official announcement of such a contest.

SPONSORS TO BE HOSTS
The sponsors of the different companies under the leadership of Honorary Colonel Nina Bowman will act as hostesses for the evening. It is "alleged" that the ladies will all appear in the regulation uniforms of the sponsors and are going to put up some sort of entertainment which is going to be one of the features of the evening's program. This has not been confirmed as Ka Leo goes to press.

While this is primarily a student affair, it is expected that notables from the city and prominent members of the faculty at the University will be present at the function.

U. H. Student Weds Royalty

Eileen Hutchins, freshman student at the University of Hawaii, and David Kalakaua Kawanakao, were married at six o'clock Sunday morning, February 26, at the parsonage of the First Methodist Church, the Rev. Clyde E. Boyer officiating.

The marriage at the Methodist Church was followed at eight o'clock the same evening by the performance of the Roman Catholic marriage rites, read by the Rev. Father Emile Roger at St. Augustine's Church.

To the parents and many friends of the couple, the wedding came as an absolute surprise. About 50 friends attended the ceremony at St. Augustine's, after which a brief reception was held at the residence of Princess Kawanakao, mother of the bridegroom, on Pensacola Street.

Mrs. Kawanakao is the daughter of Capt. and Mrs. Charles T. Hutchins, U. S. N., who live at 2877-A, Kalakaua Avenue. She is also the niece of Margaret Anglin, famous actress, who appeared in Honolulu about two years ago. She entered the University of Hawaii as a freshman last September, having graduated from Dominican College last June.

Mr. Kawanakao is the son of Princess Abigail Kawanakao and the late Prince David.

Ka Palapala

Work on the school annual, Ka Palapala, is getting under way and it is hoped that it may be possible for the staff to finish all work by the end of this month so that the publication may go to press by the first week of April, which will make it an easy matter to have the finished product in the hands of the students by May.

Progress, however, is greatly handicapped by the fact that many of the students have not as yet had their pictures taken at Schultheis Studio. Members of the junior and senior classes especially are urged by the editor to cooperate as much as they can. With all individual sittings finished, the photographer will be ready to work on the group pictures of the various organizations.

Persons who have had their pictures taken at studios other than Schultheis, are requested to pay 75 cents in addition to the cost of the sitting. This amount goes to pay for the space occupied by the picture in Ka Palapala. The money can be paid to E. C. Keyes, business manager.

Patience, Quill To Be Discussed

Literary Club Decide
Weighty Questions;
Meet Monday

A number of business items of considerable importance, among which are plans for the editing of the next issue of the Quill Magazine, and the staging of the comic opera "Patience" which is being produced by the club, will be discussed at the next meeting of the Hawaii Quill at 7:15 o'clock next Monday night at the home of Miss Winifred Webster, 1836 Punahou Street, opposite the Punahou School, according to Helmut Hoermann, chairman of the entertainment committee.

WILL GIVE SUGGESTIONS
Mrs. Adna G. Clarke, who has written a great deal of poetry under the pen name of Jane Comstock and is considered one of the best local writers of Hawaiian verse, will make known the details of the poetry contest which she, as poetry adviser to the Club, is conducting.

READING OF MANUSCRIPTS
Members are urged to bring with them any manuscripts, either poetry or prose, for discussion at the meeting. The works thus dealt with will not be barred from use in the Club publication, it was announced.

One of Eugene O'Neill's plays of one or two acts will be read at the meeting to both form one of the main events of the evening's entertainment and to furnish members with ideas for further literary effort.

Engagement of Alla Neely Announced At Club Banquet

Two more victims to the onslaught of Cupid's bow and arrow were announced the evening of February 29, at the Ka Pueo banquet at the Waialae Golf Club, when Miss Alla Neely, one of the forementioned victims, told those present of her engagement to Henry Wicke, class of 1925.

Miss Neely is a senior at the University this year, having transferred from the University of Southern California and has been prominent in student activities. She took the leading part in last semester's stage success, "Icebound," and has coached a number of dramatic night plays. Miss Neely is also president of the Dramatic Club and vice-president of Ka Pueo.

Henry Wicke, who received his C. E. degree in 1925, has been connected with the Civil engineering department of the Bishop Estate since his graduation.

No date for the wedding has as yet been announced.

Two Engineering Prof's to Return

Next year will see the return of John M. Young and Carl B. Andrews, professors of engineering, to the University faculty, according to information from the President's office. Professor Young and Professor Andrews are on leave of absence this year.

DEAN TRACK TEAM LOSES FIRST MEET

Varsity Men Show Up
Well Considering
Training

H. W. CHING GOOD

Coach Spud Harrison
is Satisfied With
Performance

The Rainbow track squad took their first airing last Saturday afternoon when they competed in a three-cornered track meet with Punahou Academy and McKinley High School. Hawaii finished up last with a total score of 26½ points, Punahou, first with 56½, and McKinley second, 36 tallies.

As the Varsity cinder burners were given strictest injunctions not to strain themselves, the results of this meet should not be taken too seriously. The meet was a sort of a feeler, as Coach "Spud" Harrison put it, to find out what certain men could do in order that there will be no uncertainty in future training and the coming meets of importance.

CHING GOOD
Hung Wai Ching, Rainbow captain showed up most brilliantly in both sprints and pit. The fact that he took part in the century, the 220 hurdles, and the half mile relay before taking first place in the broad jump shows that the legs and wind that have helped the Varsity out of tight places in times past will continue to do so.

Another good performance of the day was the taking of the mile by Swezey, Varsity distance mainstay. While his time was not particularly fast, it must be considered that this is the first time he has been clocked in close competition with others of his class.

Whitman of the University surprised the field by taking the shot put. Whitman is new to the Rainbow aggregation and is showing up well. Wriston, Friel, and Peterson also gave promise of being of considerable value in the coming season.

Adelphai Women Invitations for Faculty Tea Out

Edith Grieg Selected
General Chairman
of the Affair

Invitations for the Faculty Tea to be given by the Adelphai Club on Saturday, St. Patrick's day, March 17 from three to five o'clock at the home of Miss Alice Denison on 1840 Vancouver Highway, have already been issued.

Miss Edith Grieg is general chairman and she has selected the following Adelphai members to assist her on the different committees: Miss Chiyoko Sadayasu, invitations; Miss Noelani Schwallie, decorations; Miss Lillian Abe, refreshments; Miss Ruth Robbins, program. Miss Grieg, Miss Schwallie, Miss Denison, Miss Sadayasu, Miss Betty Steere and Miss Margaret Wong will receive the guests.

Invitations and color scheme for the decorations carry out the St. Patrick motif. All members of the Club are expected to attend this, one of the biggest social events to be sponsored by the Club.

Friend Peace Club Holds Meeting

The Friend Peace Club held its regular monthly meeting at the Nuuanu Y.M.C.A. on March 4th. Those present were Pres. Richard Kaneko, Secretary Misayo Ishizaki, Makoto Nukaga, Samuel Kawahara, Yoichi Hanaoka, and Paul Osumi. The work of collecting the Japanese Library fund, which was taken over by the club, was reported on.

The club also took up the matter of adopting a club pin or a ring, and also the matter of cuts and write-up for the Ka Palapala. It was unanimously voted that all the members pay a fine of ten cents for being late to the meeting and twenty-five cents for being absent without good reason.

Time to Start

Some of us are prone to take the defeat of the varsity track team last Saturday at the hands of the two preparatory schools rather highly, offering as an alibi the fact that the men had only two or three weeks of training and that many of the veterans were not participating in Saturday's meet. Be that as it may, it behooves those of us who have the interest of the University in mind to spend a little time looking into the situation. What's wrong?

For one thing, the responses to the call for track candidates have been far from encouraging, for out of the three or four hundred men students in school only twenty or more have evinced enough interest to turn out for practice. It's time for aspirants for places on the varsity team to start hard work if we hope to make any sort of a showing at the Rainbow and A.A.U. meets which will soon be here. Let's get going.

"Patience"

The Hawaiian Quill, campus literary society, is to present "Patience," Sullivan opera, sometime this month. It has secured the aid of men like Milton Seymour and Professor Kirkpatrick, experienced in the work of coaching productions of this nature, who are putting in much of their time and energy toward the success of this undertaking of the Quill. This promises to be something entirely different from student entertainments of the past. The least that we can do is to lend our hearty "kokua" to the effort of the members of the Quill. Those who are in the cast or in any way directly connected with the enterprise should be prompt in the execution of their duties, be it the rehearsing of a minor part or selling tickets, for it is only thru patient and conscientious practice that perfection can be attained. It is a project well worth the time and effort put into it.

"I am seventy years old and it is time to go on the shelf." In this manner Dr. Frank Johnson Goodnow, president of Johns Hopkins University, explained his resignation. Dr. Goodnow is distinguished not only because he is not going to write a book after retirement, but mainly for his scholastic devotion which has made Johns Hopkins outstanding for its graduate work.—The New Student.

New Practice

"Vagabonding" or the practice of listening in on a lecture in a course which one does not take, has rapidly become popular at Harvard, since its inception last year, according to the Harvard Alumni Bulletin.

Every morning the Crimson, the Harvard paper, prints a list of lectures which might be of general interest. The information used in compiling the list is obtained through the courtesy of the instructors. Any student may at any time wander into any lecture, help himself to a vacant seat, and listen to what is going on.

The Daily Princetonian points out two distinct benefits of the practice of "vagabonding." In the first place, it broadens one's outlook by giving an opportunity to gain an insight into interesting courses which, for one reason or another, the undergraduate has not been able to incorporate into his schedule. The second advantage is that it offers a sound basis for making a rational choice of the following year's electives by acquainting one with the idea of the work of the various courses..

Here in the University, "vagabonding" may serve another useful purpose. It may help to scatter the somewhat conspicuous assemblage of students on the front steps of the main hall and it may help to preserve better order in the crowded library by attracting a few who do not seem to have anything to study.

By a vote of 482 to 36, students of Louisiana State University declared their honor system a failure. Opinion was equally divided on the establishment of faculty proctorship. Much of the comment written onto the ballots indicated that faculty suspicion was in part, at least, held responsible for the collapse of the honor system.—The New Student.

Purpose of College

America needs carefully trained men and women who can meet and successfully cope with the serious problems which confront the nation; and to this end are the colleges and universities maintained throughout the land, says President D. L. Crawford.

It is not right that a student should take lightly or flippantly the fact that he is in college. From the day of his entrance as a freshman until he graduates, there should be one question uppermost in his mind—"What am I best capable of doing in the world and how should I prepare for it?" This attitude toward one's activities in college is sure to result in a more successful and worthwhile course of study, and more truly will it be a preparation for one's life work instead of a haphazard series of courses unrelated to a central purpose. (L. A.)

Research as One's Career

Within the past twenty-five years productive industry and creative science have together evolved a new relationship in the formation of laboratories of industrial research, says John Mills of the Western Electric Co. in New York, speaking for the National Research Council.

This new union, starting in the electrical and chemical industries and greatly accelerated by war-time necessities, promises a fruitful relationship.

The industrial laboratory differs from the academic research laboratory in its choice of field for research endeavor, or rather in the principle underlying its choice within any given field. Over a reasonable number of years the choice of subjects of investigation which the industrial laboratory undertakes must be justified by commercially valuable applications, by savings in existing processes or by profits in new commercial ventures.

STABILITY OF PERSONNEL

There is one factor in which the commercial laboratory has the advantage and that is in the permanence and continuity of opportunity and effort and in the stability of its personnel. The graduate school must recruit its younger workers every three or four years, and except for the few who remain as members of the faculty, the results of its training do not accrue to it in an increased staff of seasoned investigators. The industrial laboratory employs with a hope of permanence, selecting for a life time of creative work, and gains the cumulative effect of individual and group experience.

BALANCED RATION OF WORK

To the individual scientist a properly organized industrial laboratory can offer a psychologically balanced ration of work. For just as our bodies demand a balance of various foods with the necessary enzymes and vitamins, so it appears that our individual minds perform best in particular surroundings and upon certain types of problems. One scientist may be an ingenious experimentalist; and another fruitful in theoretical considerations and speculations but impatient and inept at their experimental embodiment. One may function best as a relatively isolated worker, and another differ by demanding greater stimulation from human companionship. For each dependent upon this temperament and early training, there seems to be at any time a specific proportion of the various possible types of work, which develops the greatest intellectual efficiency.

INDIVIDUAL ACHIEVEMENT

There was a time when in the industrial field the financial rewards went disproportionately to those of the executive type and the individual expert fared less well. A better perspective and an increased recognition of the value of scientific achievement, for which the accomplishments of the industrial laboratory have been largely responsible, have altered this situation. So that today the general tendency and in many cases the final result is a system of remuneration based on individual achievement, in which technical accomplishment in the art and contribution to the welfare of the corporate unit are the sole and equally important criteria.

Individuality of aim, of opportunity, and of reward; wide personal and scientific contacts; group stability and stimulus; these are the outstanding advantages to the individual of association in the technical staff of the modern industrial research laboratory. Many successes have been made and more are under way in this field of industry.

Dorfman Will Work for Ph.D.

Ben Dorfman, instructor in commerce, has decided to return to California to complete his doctor's degree and will not be with the University faculty next year. He received his A. B. in Reed College and M. A. from the University of California.

KENNETH CHUN

Kenneth Chun, President of the Freshman class, is a very popular student at the University. Since coming to the University he has taken active part in various activities on the campus. He was the general chairman of the Freshman Valentine Social and also the leader of the Nuauu Y. M. C. A. Pioneer club. While in McKinley he was the president of his class, captain of the McKinley band, secretary of the Student Body, President of the Hi-Y club, and was a delegate to Mt. Hermon Conference.

The sum of one million dollars has been placed at the disposal of the University of Chicago for research work in the fighting of disease.

Miss Young Weds Y. T. Lum; Many Friends Present

Lum is Graduate of Class of '27; Bride is Sophomore

About a 1000 friends and relatives were present at the wedding of Miss Clara Kam Hon Young and Yin Tai Lum at 8 o'clock, Saturday evening, at the home of the bridegroom, Woodlawn Tract, Manoa. The Reverend Stephen Mark officiated.

As the bridal car drove into the driveway, a long streamer of firecrackers attached to a pole at the entrance way was lighted. After more than five minutes, when the firecrackers had finally burned away, the wedding march was softly played. The procession formed in the driveway, and it went through an aisle of guests assembled on the lawn to the artistically-decorated living-room, where the ceremony took place. After the ceremony the bride and groom and their attendants came out to the pavilion to receive the congratulations of the guests.

WHAT THE BRIDE WORE

The bride was beautifully gowned in an elaborate pink satin Chinese suit, heavily embroidered and ornamented with brilliants. On her head were three strands of orange blossoms which fell in graceful lines on either side of her face. The bride's shower bouquet was of lilies of the valley, gardenias, tube roses, bride's roses, white violets, and maiden-hair ferns.

Miss Dorothy Chang, the maid of honor, wore a green silk embroidered gown with an overjacket of gold. Her bouquet was of yellow rosebuds and violets. Her head was encircled with a wreath of silver leaves.

BRIDESMAIDS

Miss Young had four bridesmaids. Miss Rena Ching and Miss Grace Loo were dressed in green, and Miss Katherine Lum and Miss Rose Chun wore grey gowns beautifully embroidered in lavender. These bridesmaids all carried harmonizing bouquets and wore silver bands around their heads.

The two little flower girls, Vivian and Madeline Choy, were dressed in charming, pink silk jackets and trousers. They wore wreaths of pink rosebuds and carried baskets of rose petals.

C. T. Lum, brother of the groom, was the best man.

Orchestral music provided for dancing, and card tables were arranged on the lawn for those not wishing to dance. Icecream and cookies, punch, and other refreshments were served during the early part of the evening, while fried chicken noodles were served about midnight.

Mrs. Lum is the daughter of Mr. and Mrs. Young Tong, and she was a sophomore at the University. Yin Tai Lum is the son of Mr. and Mrs. Lum Yip Kee. Lum is the assistant manager of the Liberty Bank, and formerly an active student while at the University.

U. H. DEBATERS LEAVE MAY 15

(Continued from Page 1)

The letter received by Mihata also stated that the Green and White team would be expected to address the students of the universities about Tokyo, and to appear before various clubs at luncheons. It was suggested that arrangements similar to those made at Tokyo might be made in the Kansai district, comprising Kyoto, Kobe, and Osaka. Word has not yet been received from representatives there, but these cities have been included in the itinerary of the local debaters.

Besides making a tour of Japan, some of the principal cities of China will be visited as well. Hongkong, Canton, Shanghai, and Nanking have been suggested, and perhaps others will be added. From China the team plans to make a trip to Manila and debate with the University of Manila.

Walter Mihata, Stowell Wright, and Ah Ho Chun, the three members of the University of Hawaii team, have started work in preparation for their coming trip. Orations will be prepared before they leave, and material on several subjects gathered for debates and informal talks. It has been suggested that these three give talks before some of the local organizations before they leave, but no dates have been set as yet.

A meeting of the University of Hawaii Cosmopolitan club, the organization most actively sponsoring the coming debate tour, was held at the Pan-Pacific Union headquarters in the old Castle Home last night, and plans for financing the trip were talked over. It was suggested that the local team be authorized to go as representatives of the Cosmopolitan club, and to do what they can to organize similar clubs in the Orient.

Student activity tickets at the University of Oklahoma costs \$10.00 and are good for 53 events.

"U" Students Enjoy Picnic

Miss Dorothy Anderson and Orme Cheatham entertained a small group of their friends last Sunday with a novel day's outing. A small boat took the crowd from Waipahu to an inhabited island, in the west lock of Pearl Harbor, where a lovely picnic lunch was served.

The guests spent most of the day hiking over the island and fishing. Those present at this delightful little picnic were Miss Flora Walker, Miss Nina O'Day, Miss Dorothy Anderson, and Robert Castendyck, Francis Petrus, and Orme Cheatham.

Miss Carey Miller Is Author of New Pamphlet on Diets

"Hawaii offers an unusual opportunity for the study of the effect of the nutritive value of food upon the stature and physical well-being of the human race," Miss Carey Miller states in the introduction of "Bulletin of Food Values of Poi, Taro, and Limu."

The class under Miss Miller this year is continuing the study of the old Hawaiian diet. In studying the foods of diet they are particularly interested in the vitamin content, the calcium and phosphates found. Chemical analyses are made of the various foods.

This year they are working on the bread fruit, both Hawaiian and Samoan, taro top, commonly known as luau, sugar cane juice, pandanus, and on the guava juice. These foods are not extremely important but were used by the Hawaiians. The question arose what each contributed to the Hawaiian diet.

STUDY FLESH FOODS

"This section of the plant foods will soon be completed and the next work done on the old Hawaiian diet will be the study of the flesh foods, especially the ones that they still find here, such as squid, etc., Miss Miller announced at the beginning of the week.

In her bulletin "Food Values of Poi and Taro Top," Miss Miller has made some very interesting statements concerning the primitive Hawaiians.

"While no attempt is made to deny the influence of heredity upon the stature and build of a people, students of nutrition have found convincing proof of the effect of food upon the physical development of people, asserting that fine stature in a race or unmixed group is due to the use of good food over a long period of time, and conversely that uniformly poor physique may be due to food inadequate in quantity or quality for many generations.

"Centuries of life on isolated tropical islands had taught the Polynesians which of the available foods would satisfy their needs, and on their long journeys the Hawaiians brought the necessary food plants in their outrigger canoes, and were still cultivating the plants when the islands were discovered by Captain Cook in 1778. As the animal food would vary little, it follows that the diet of the Hawaiians at that time had been maintained practically unchanged for at least 1500 years.

"Unlike most peoples of fine stature, the Hawaiian race had no grains and no milk, yet it compares most favorably with other races in both stature and physical development. It is therefore desirable to evaluate the constituents of their diet in order to determine what the foods contributed.

CAPTAIN COOK

"Captain Cook describes the diet as follows: * * * the food of the lower class of people consists principally of fish and vegetables, such as yams, sweet potatoes, taro, plantains, sugar canes and bread fruit. To these, the people of higher rank add the flesh of hogs and dogs, dressed in the same manner as at the Society Islands."

Miss Sylvia Dean is doing some research work under Miss Miller. She is finding the content of the mature coconut. Miss Dean will do considerable work in the chemical analysis of her study.

Deputation Work On Maui Praised

H. Alton Rogers, Principal of Lahainaluna Technical High School, wrote to President D. L. Crawford, praising the recent deputation sent out by the University Y. M. C. A. The letter is as follows:

David L. Crawford,
President, University of Hawaii,
Honolulu, T. H.

Dear Sir:
Recently a deputation of students from the University Y. M. C. A. visited this school and gave us a splendid treat.

We wish to congratulate you and thank you for the fine Christmas atmosphere that these young men brought to our students.

Yours sincerely,
H. ALTON ROGERS.

Juniors Will Give 3 Plays

March 20 is Date Set for Class Dramatic Night

Rehearsals for the Junior dramatic night to be given at 8 p. m. Tuesday March 20, at the Central Union Parish House, are well on their way.

Percy Smith is in charge of the program for the night and has announced three plays which will be presented. They are "The Stolen Prince," a Chinese production coached by Miss Margaret Lam, "A Marriage Proposal," a one act comedy, coached by Miss Ellen Sisson, and "Green Chartreuse," a French mystery play, under the direction of Stowell Wright.

Miss Lam, in an effort to give the University something different in the form of amusement, is emphasizing the Chinese note throughout her production. She will put on a typically Chinese play with Chinese make-up, Chinese costumes and Chinese walking. Another feature of her play will be an orchestra composed of junior men, playing Chinese instruments.

The cast for "The Stolen Prince" is as follows:

Edward Kushi—Long Fo, the little son of the royal cook.
Ethel Fransen—The royal nurse.
Courtland Ashton—Hi Tee, a poor but honest fisherman.
Flora Rhoades—His wife.

Herbert Kai—Joy, the little stolen prince; hero of the play, Martin Lum and James Wong—soldiers of the royal court.

Antonio Cruz—The executioner.
Helmuth Hoermann—The chorus.
Thaddeus Coykendall—The property man.

Members playing in the Chinese orchestra are Kenneth Aloiau, gong; Paul Ozaki, cymbals; Yasumi Mashimo, Chinese fiddle; Richard Young, flute; and K. S. Hew, drum.

The cast for "A Marriage Proposal" includes: Miss Dorothy Anderson as Natalya Stepanovna; Larry Thomas, taking the part of Stepan Stepanovitch Chelukov; and Percy Smith as Ivan Vasilyevitch Lomov.

Though the cast for the third production, "Green Chartreuse" has not yet been definitely decided upon, this play promises to provide much in the way of eery thrills.

Moses Inaina is working on a program of entertainment to fill in the intervals between plays. Knowing Moses' fun-making propensities, the University can be assured of much amusement between scenes.

Crawfords Give Informal Dinner

President and Mrs. David L. Crawford entertained members of the men's and women's dormitory at an informal dinner last Sunday evening at their home.

After supper games were enjoyed. Such games as vegetable romance, writing the names of all the states in the Union within a period of 15 minutes, a list of spelling words that were so difficult that even Ben Dorfmann missed a few.

The rest of the evening was spent in listening to Mrs. Crawford's piano solos and Dorfmann's violin selections that need not be commented on for their beauty and charm.

Varsity Track Team Defeated In First Meet

(Continued From Page 1.)
HARRISON SATISFIED

"Considering that a number of men are still playing soccer, and that those participating in the meet have been out but a few days, I am fairly satisfied," said Harrison in commenting on the results of the meet. "There are still a number of things to polish up, however."

Results of the meet were as follows:

100 yard Dash: McQuire, (P), Ome, (M), Ching, (U. H.), Bowman, (P). Time: 10 2-5.

1 mile run: Swezey, (UH), Ching, (M), Durant, (P), Yoshioka, (M). Time: 5 min. 2 1-5.

440 yard dash: Danford, (P), Kufferath, (M), McDonald, (P), Wight, (P). Time: 53 2-5.

220 yard hurdles: Indie, (M), Gannon, (P), Ching, (UH), Lee, (UH). Time: 27 1-5.

Half mile run: Nishihara, (M), Gomes, (M), Davis, (P), Sanborn, (P). Time: 2 min. 6 3-5.

Half mile relay: Punahou, McKinley, University, Punahou II. Time: 1 min. 33 4-5.

Pole vault: Andrews, (P), Yim, (M), Gay and Clarke, (P) tied second. Height: 9 ft. 11 in.

High jump: Gannon, (P), Friel, (UH), Greig, (P), Whitmore, (P), Christoffersen, (P), tied for second. Height: 5 ft. 6 in.

Shot put: Whitman, (UH), Larsen, (P), Wriston, (UH), Peterson, (UH). Distance: 43 ft. 8 1/2 in.

Broad jump: Ching, (UH), Fujiyama, (M), Friel, (UH), Nakayama, (M). Distance: 21 ft. 1/2 in.

Officials: William Kam, starter. Timers: Percy Deverill and Schmutzler.

Judges: Allen McGuire, Charles Cassidy, Fred Wright, Auld, and Lowrey.

Announcer: Henry Chillingworth. Scorer: Wright.

Work on Second Semester Quill Magazine Begun

Mrs. Clarke Offers \$5 Prize for Best Poem

Members, who are on the staff for the second semester edition of the Hawaii Quill magazine, have already started work. This is the first literary magazine to be published in the University. The Quill staff is planning for a bigger and better edition to be out in May.

This edition will contain the \$25 prize play. The judges, Dean A. L. Andrews, John Milton Baker, and Don Blanding, are having a difficult time deciding which play deserves the prize.

POETRY PRIZE

Mrs. Adna G. Clarke, poetry advisor for the Hawaii Quill, has announced a \$5 prize for the best poem submitted this semester for the magazine. All Quill members and regular students of the University may compete for this prize. Other prizes will be announced later.

There will be a large box in the Library in charge of Miss Euphie Shields and Miss Kathryn McFarlane, both members of the Hawaii Quill. This will be the manuscript box where authors may drop their contributions. The articles must not be signed, so that the judges may be impartial—they must be typewritten. Titles and names of authors should be given to the president, Miss Marguerite Louis, or to Miss Floralyn Cadwell. The rules and further information will be posted soon.

Deans Defeat Iron Workers

Jensen, Caddick Score 2 Lonely Tallies of Game

Good, fast soccer was displayed at Makiki Field last Saturday when the University of Hawaii followers of the ancient Celtic sport took their opponents, the Honolulu Iron Works, down a notch to the score of two points to a goose egg. This is the second game the Deans have won from the Iron Men and incidentally one that tightened the Varsity hold on the 1928 championship.

Hawaii got off on the right foot in the first quarter when Jensen, aided and abetted by his team mates, managed to squeeze the pigskin through the enemy's uprights for the first tally. Then the Workers tightened up and played Scotch football for the remainder of the game, a slight relaxation in their vigilant guarding of the home net at one time in the second quarter being seized on by Inside Left Caddick of the Rainbow squad as an opportunity to make the only other goal of the game.

No one man on either eleven could be said to have played a particularly outstanding game. Both teams worked with wonderful precision, and in more than one instance individual craniums were used to greater advantage than merely as buffers.

Captain Dease seemed to have a slightly off day, if any one did. His game was not quite up to standard, but this unusual lack was more than made up for by his Hebrew dozen. Robertson and Holt, Iron back and goalie, offered the Deans perhaps the greatest resistance, the first mentioned in the drives toward goal, and the second in his home territory.

Team lineups were as follows:

Deans	Position	Iron Works
Christopherson	G.	Holt
Das	R.B.	Robertson
Weight	C.B.	Markham
Cushnie	R.H.	Rosemond
Judd	C.H.	Harrison
Morrison	L.H.	Hollinger
Kal	O.R.	Cummings
Jensen	I.R.	White
D. Dease	C.F.	Philpott
Caddick	I.L.	Thomas
Steere	O.L.	Cutter

Many Cadets Fire on Range

9 Men Finish Practice Course; Will Pick Team Soon

Twenty-eight ambitious cadets are turning out every afternoon at the target range in order to make the rifle team this year. Of the twenty-eight, nine have already completed their firing practice up to the time this paper went to press.

Those who have completed the practice firing in sitting, kneeling, prone slow fire and sitting and standing rapid fire are: C. B. Siebert, score 231 out of possible 250 points; N. W. Chun, 227; Kenneth J. Pratt, 224; K. Harada, 218; C. B. Jones, 215; T. R. B. Coykendall, 213; H. B. Luke, 213; R. S. Kinoshita, 211; and H. Hamamoto, 207.

Cadets who want to make the team have the rest of this week to fire the rifle. Next week the rifle team men will be picked to represent the University in a marksmanship competition against Punahou on March 17.

The University team will probably meet McKinley and Kamehameha, in April. After competing against the high schools the Varsity team will meet the Hawaiian National Guard rifle team and the regular service team stationed on this island.

University of South Dakota freshmen are required to carry pillows to classes.

The University of Idaho cadet band, consisting of 54 pieces, gives two public concerts every year.

Austin College in Texas boasts of the basketball player supreme. Standing seven feet three inches tall, he has an upward reach of ten feet.

A magazine whose staff personnel is composed entirely of sophomores has been started at Michigan State University.

A system of unlimited cuts for upper classmen is being given its second year's trial at Haverford.

"U" Tennis Team Wins 5 Matches; Makes Good Start

Prospects for Championship in League Bright

The University Tennis Team got off to a flying start in the Oahu Tennis League last week-end by taking all five matches from the Nuuanu Y. M. C. A. Last year the University came second in the league, with only the Beretania Tennis Club ahead of it. This year Beretania is not entered in the League so the University has more than a fine chance of placing first.

Kawahara of the University defeated Arthur Yee of the Nuuanu Y. M. C. A. in a hard match. Some fast tennis was seen in this match but Kawahara kept the game well in

hand most of the time. Tsushima of the University proved too accurate for Kogure of the Nuuanu Y. M. C. A. and by clever placing tired Kogure until his shots went for clean placements. Tsushima's game improved as the match progressed and in the end his passing shots were unreturnable. He won 6-4, 6-1.

The Dease brothers pulled through in their match with Ching and Tom, 6-3, 6-1. Donald Dease's service and overhead were going strong and many shots were bounced over the back-stop.

Black and Cushnie were worked hard at first, but they proved too steady for Wat Tin and Hoh and they won out 9-7, 6-3.

Lydgate and Shitamae dropped the first set against Miyamoto and Akana, but they came back strong

and won the next two. Lydgate looked good at the net and Shitamae backed him up well. With a little more practice, they will be very hard to beat. They won by the score of 2-6, 6-2, 6-4.

Headquarters Co. Wins Competition; Dease is Captain

Headquarters Company under the leadership of Cadet Captain W. M. Dease captured the February inter-company competition held last week, making a score of 94.31.

Howitzer Company came next with the score of 94.02; Co. I, third, 90.57; Co. H, fourth, 89.69; Co. K, fifth, 88.89; Co. M, sixth, 87.73; and Co. L, seventh, 83.67. First Battalion won the battalion competition with the score of 92.47; Third Battalion, second, 90.52; and Second Battalion, third, 86.45. The regimental score was 89.91.

Howitzer Company is still at the top of the list in the records up to date, having a score of 89.00. Cadet Captain Bernard Farden is leader of the company with First Lieutenant Thomas Maeda, Second Lieutenant Antone Cruz, and Second Lieutenant Jiro Suzuki assisting him in leading the company.

Headquarters Company is second down the list with the score of 88.77; Co. I, third, 87.80; Co. K, fourth, 87.45; Co. L, fifth, 86.78; Co. H, sixth, 86.38; and Co. M, seventh, 86.15. First Battalion is leading in the battalion competition with the score of 88.27; Third Battalion, second, 87.17; and Second Battalion, third, 87.14; regimental score, 87.49.

In inspection Headquarters Company was the best in appearance with Company I next and Company K following, First Battalion making the best showing as a battalion.

Company L made the highest score in attendance during the month of February, Headquarters next, with Howitzer Company following; Second Battalion, first among the three battalions.

Howitzer Company appears to be the best trained at the University with Headquarters second, Co. I, following, according to figures compiled by the military department from the training test. First Battalion, first.

One interesting thing about the last inspection is that out of the 187 rifles that were inspected 151 were found to be dirty.

Inspection officers of the day were Captain Thomas E. May of Kamehameha school and Captain Alexander Adair of McKinley high school. Colonel Adna G. Clarke, retired, Captain Cecil J. Gridley, and Captain Norman Nelson acted as training test officers of the day. Sergeant Joseph Gerdes and Sergeant Edward Keyes kept records of the inspection.

New Yorker Gives \$250 for Aquarium

President David Crawford has received a check for \$250 from J. Walter Wood of New York city, a visitor in Honolulu who spent some time visiting the aquarium and became interested in it. The donation is for the building up and furthering the study. Mr. Wood is a guest at the Moana.

Life is real, life is earnest,
We must strive to do our best;
And departing, leave behind us,
Note-books that will keep the rest.
—Aggravator.

Students in Chicago raise both hands when the teacher suddenly asks them a question.

George Washington lived years ago
And never told a fib.
They had no honor system,
But our Georgie didn't crib.
And by and by he got to be
The father of his land.
I'd rather lie and cheat a bit
And drive a Rolls sedan.

Nora Bush Weds at Christian Church

Miss Nora Bush was married to Colin Potter by the Reverend Howard Fagan at the Christian Church on February 18 at 4 p. m.

The bride was beautifully dressed in a white canton crepe gown worn with a white taffeta hat. She carried a white shower bouquet made up of roses, violets, and carnations with maidenhair ferns.

Miss Mabel Potter, sister of the groom, was the bride's only attendant. Miss Potter wore a blue taffeta dress with a white picture hat. She carried a bouquet of roses, for-get-me-nots, and sweetpeas.

James Bush acted as the best man at his sister's wedding.

After the wedding, a supper was served to a few intimate friends and immediate members of the family at the home of the bride's parents in Manoa. The caterer was Mrs. Coxhead of the U. cafeteria.

Colin Potter is connected with the H. S. P. A. Experiment Station.

Mrs. Potter was a prominent student at McKinley and an honor graduate of the class of 1925. She is also associated with the University.

Mr. and Mrs. Potter are now living at 1530 Kaihee Street.

Alumni Notes

HENRY THOMPSON

Henry "Duke" Thompson, '26, is at present located at Wahiawa, Oahu. Duke is engaged in soil work for the Pineapple Experiment Station. Duke is remembered as one of the greatest ends who ever played in Hawaii. He was one of the eleven of the "Wonder Team" of Hawaii. During the last football season, Duke was unable to play regularly, but football fans were able to see Duke perform with the Oahu Blues part of the time. Duke's future plans are centered about pineapple work in the territory.

JIM CRUICKSHANK

The "Wonder Team" of Hawaii could never have been complete without "Big Jim" Cruickshank, '26, who held down the position of center. Jim is now employed by Alexander & Baldwin as traveling auditor. Jim recently married Dorothy Schreiner, who also attended the University.

LOUIS COLLINS

Louis Collins, '26, another one of the very important eleven of the "Wonder Team" of Hawaii, was at that time considered the greatest tackle in Hawaii. After his graduation, he proceeded to teach the younger generation of Kona how to tackle. Louis is continuing his work as athletic director of Kona-waena, and incidentally, he is proving quite successful along that line.

Cornell University, until recently open to men students only, is now definitely co-educational. Four new women's residence halls are to be constructed this spring.

The University of Southern California is giving an evening course in commercial aviation.

Ka Pueo Leap Year Dance is Huge Success

It is very seldom that men experience the pleasant sensation of being escorted to a formal dance by a woman, but such was the case on the evening of February 29, when a number of men were the guests of Ka Pueo at a Leap Year dance given at the Waiolae Golf club.

Members of Ka Pueo and their men attended a banquet which preceded the dance in the club house. A pleasant surprise was experienced by all when the engagement of Miss Alla Neely and Henry Wicke was announced at the banquet, in the form of two red paper hearts, pierced together with an arrow. Upon the hearts was inscribed, "Alla—Henry, betrothed."

At nine o'clock the dance took place in the dining room of the club house, which had been decorated with yellow crepe paper and purple bougainvillea, these being the colors of the sorority.

All duties which ordinarily it is the man's place to perform, such as filling out dance programs, making introductions, procuring refreshments, and so forth, were fulfilled by the women, a great relief to their "better halves" for the evening only.

In the receiving line were President and Mrs. Crawford, Miss Alice Dennison, president of Ka Pueo, and Luigi Giacometti. Dr. and Mrs. Crawford, Dean and Mrs. Keller, and Dean and Mrs. Andrews kindly consented to chaperone the affair.

Members of Ka Pueo and their escorts who attended the banquet and dance were: Miss Alice Dennison, Miss Alla Neely, Miss Juanita Lemmon, Miss Lellani Rohrig, Miss Helene Bartels, Miss Gladys Bartlett, Miss Norma Bemrose, Miss Alice Bevins, Mrs. Sidney Hinds (nee Regina Christoffersen), Miss Edith Ewart, Miss Ada Forbes, Miss Janet Haughs, Miss Isabel Hockley, Miss Matha Jensen, Miss Margaret Lemmon, Miss Marjorie Lightfoot, Miss Rachel Lower, Miss Catherine Moragne, Miss Beatrice Newport, Miss Grace Rourke, Miss Caroline Shepherd, Miss Betty Smith, Miss Margaret Steger, Miss Lois Thompson, Miss Alice Wall, Miss Winnifred Webster, Miss Margaret Wolf, Miss Martha Wright, Miss Rosalia Young, Messrs. Luigi Giacometti, Henry Wicke, Lieut. Barton, Edwin Peterson, Clarence Christopherson, Roy Jacobson, Merlyn Forbes, Lieut. Sidney Hinds, Glenn Hunter, Percy Lydgate, James Bush, Phillip Peck, Herbert Kai, Bud Cramer, Richard Weight, Jack Myatt, Ralph Cloward, Clarence Crabbe, H. Eaton, Lieut. James Pichel, Edward Keyes, Lieut. Johnson, Paul Budd, Lieut. Nicholas, Jorgen Jensen and Ellerton Wall.

Son: "Say, paw, the teacher asked me to find the great common divisor."

Paw: "Great heavens, is that thing still lost. The teacher had me hunting for it when I was a kid."—Ex.

Jim: "What is that thing on your neck?"

Jam: "A freckle."

Jim: "That's queer, it's the first time I ever saw a freckle walk."—Ex.

Cancos Trim Varsity Nine

Ishii, "U" Moundsman, Pitches Good Ball

In a tight battle which ran four innings without a score on either side, the University was forced down by their more powerful opponents, the American Can baseball nine, at the Honolulu Stadium last Saturday.

Both teams scored one run in the fifth period, "Fat" Nakamura making the tally for the Deans, and Tsurutani for the Timmen. The battle then raged for another four innings without a score on either side until the last, when Okano came in with the winning digit.

Ishii, of the Deans, pitched a good brand of ball, allowing the Can Makers only four hits, but the fact that they took them at opportune moments accounts for their victory.

Eddie Fernandez, Dean fielder, was efficient in his position, scooping them up from the ground and spear-

Dinner Given in Honor of Sakamakis

(Continued From Page 1.)

we are destined to be a great service to the world by sending out young men and women of Christian character to the various parts of the world.

DR. HARADA

Dr. Harada spoke in Japanese and gave the people some idea as to what to expect in Japan. He said that these two men had great responsibility and that the work might be hard and discouraging at first. Courage and persistence to stick to the work, and to overcome obstacles are required, concluded Dr. Harada.

George Sakamaki told the people there to have confidence in the new experiment of student professorship. He assured them that they will do their best in their work, and try to establish a better understanding between the two countries bordering the Pacific.

Shunzo Sakamaki also spoke of the things he expects to do in Japan. He said that he is going there to be taught and to help the students there to understand the western civilization.

ing them from the atmosphere, allowing nothing to get past him.

He wishes to learn Japanese customs, language and psychology, so that he may be able to interpret them to western civilization. He expects to establish Christian brotherhood and idea in his work.

Richard Kaneko, who is the president of the Friend Peace Club, spoke in behalf of the club, extending to the departing people aloha and good wishes.

Mr. Richards, who is also leaving for the tour around the world, spoke a few words to the people there.

Four hundred and ninety-one students were flunked out of the University of Washington at the end of the fall quarter. This was approximately six and one-half per cent of the total enrollment.
